Mr. Wayne Nastri, Administrator
U.S. Environmental Protection Agency
Region IX
75 Hawthorne Street
San Francisco, California 94105

Dear Mr. Nastri:

Enclosed are revisions to the *State of California Implementation Plan for Achieving and Maintaining the National Ambient Air Quality Standards* (SIP). Two compact discs and two paper copies, each containing the revisions in their entirety, are enclosed. These revisions consist of adopted and amended rules of the following air quality management and air pollution control districts (districts):

Antelope Valley Air Quality Management District
Mojave Desert Air Quality Management District
San Joaquin Valley Unified Air Pollution Control District
South Coast Air Quality Management District
Ventura County Air Pollution Control District

Also enclosed is Air Resources Board (ARB) Executive Order G 125-343 adopting the districts' rules as revisions to the SIP. The districts are authorized to adopt and enforce the rules by California Health and Safety Code section 40001. ARB is authorized to adopt the rules as revisions to the SIP by Health and Safety Code sections 39601, 39602, and 41650 through 41652. Enclosure A lists the specific rules that were adopted and amended by the districts and that have been adopted as revisions to the SIP by ARB through Executive Order G 125-343.

To meet the U.S. Environmental Protection Agency (U.S. EPA) criteria for determining that rule submittals are administratively and technically complete, we have enclosed evaluations of the effects of the rules on emissions, evaluations of the rules' consistency with 40 CFR 51, and other supporting documentation provided to us to date by the districts. We have made every reasonable effort to obtain from the districts all documentation necessary to comply with U.S. EPA's SIP Completeness Policy.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption.
For a list of simple ways you can reduce demand and cut your energy costs, see our Web-site at www.arb.ca.gov.*

We understand that, according to section 110(k)(1)(B) of the federal Clean Air Act, U.S. EPA will determine within 60 days of the Administrator's receipt of a SIP revision, but no later than six months after the date by which the State is required to submit the revision, whether the rule packages within the revision are adequately complete to review for approvability. ARB staff may receive additional supporting documentation from the districts within the next few months. We will, of course, forward those additional materials to you.

If you have any questions or would like to discuss these SIP revisions, please contact Mr. Jorge Fernandez at (916) 445-7800, or if I may be of assistance, contact me at (916) 322-2890.

Sincerely,
